1	General	N/A	Projects proposing to utilize existing freeway shoulders for travel during portions of the day should be coordinated with FHWA's Texas Division Planning and Program Development staff prior to inclusion of the proposed project in the MPO's TIP and MTP. Information concerning the use of freeway shoulders for travel is available at: <a href="https://ops.fhwa.dot.gov/publications/fhwahop15023/fhwahop15023.pdf">https://ops.fhwa.dot.gov/publications/fhwahop15023/fhwahop15023.pdf</a>
2	AUS / CAMPO	2100-01-054	Not Approved. Project description reflected in February 2018 administrative amendments provided with the supporting documentation includes construction of connector road. However, this appears inconsistent with the project description reflected in the revised MPO TIP and e-STIP. Approval is withheld pending clarification of the project description.
3	AUS / CAMPO	2100-01-060	Not Approved. Project description includes construction of new connector road. However, the number of lanes and limits associated with the connector road are not provided. Approval is withheld pending clarification of the project description.
4	DAL / NCTCOG	0364-01-148	Approved. Project approved as an operational improvement proposing the utilization of freeway shoulders as travel lanes for portions of the day. Future projects proposing the utilization of shoulders as travel lanes should be coordinated with FHWA's Planning and Program Development staff prior to inclusion in the TIP/MTP.
5	ELP / EPMPO	0924-06-534	Approved. The use of CMAQ funds for this project is limited to approved eligible items (bike lane and path).
6	ELP / EPMPO	0924-06-563	Not Approved. Project scope is inconsistent with conforming Horizon 2040 MTP.
7	ELP / EPMPO	1046-03-005	Approved. The 2040 Horizon MTP and 2017-2020 TIP/STIP project descriptions indicate the construction of two direct connectors. However, project level Hot-Spot analysis documentation provided separately indicates the construction of three direct connectors. Please take steps to ensure all documents are consistent.
