Introduction

The South East Texas Regional Planning Commission (SETRPC) was designated as the Metropolitan Planning Organization (MPO) for Jefferson, Orange, and Hardin Counties by the Governor of Texas in 1974. As such, the SETRPC-MPO provides a decision-making forum for southeast Texas and is responsible for conducting a continuing, comprehensive, and cooperative transportation planning process. The main purpose of the SETRPC-MPO is to develop and maintain all transportation plans for the Jefferson-Orange-Hardin Regional Transportation Study (JOHRTS) area.

The SETRPC-MPO's short-range transportation plan is the Transportation Improvement Program (TIP), which presents the various highway and transit projects that are expected to be let for construction or implementation within the four-year time frame covered. All regional transportation projects and programs are required to be identified and prioritized in the TIP in order to be eligible for Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds.

TIP Structure

The JOHRTS Fiscal Year (FY) 2023-2026 TIP is the short-range implementation portion of the JOHRTS Metropolitan Transportation Plan (MTP) 2045. Developed through coordinated federal, state, and local efforts, the MTP incorporates all regional transportation projects and programs that are expected to be completed within the plan's horizon of 20-25 years.

The JOHRTS FY 2023-2026 TIP developments and updates must be reviewed and adopted by the JOHRTS Transportation Planning Committee (TPC), the MPO's policy committee that ensures that all transportation plans and programs are consistent with the adopted goals and objectives for the JOHRTS area. As with all regional plan updates, the SETRPC conducts robust and inclusive public involvement to provide stakeholders and the general public with the opportunity to participate in all decision-making.

The TIP contains the **Project Listings** section that includes those projects funded within the four-year period covered by the TIP and is divided into the following components:

- Federally Funded Highway Projects
- Grouped Projects
- Federally Funded Transit Projects
- State Funded Highway Projects (No projects listed in the JOHRTS FY 2023-2026 TIP)
- Locally Funded Regionally Significant Projects (No projects listed in the JOHRTS FY 2023-2026 TIP)

Other projects involving specific project development phases except for construction are contained within the following project lists:

- Right-of-Way Projects (No projects listed in the JOHRTS FY 2023-2026 TIP)
- Feasibility Studies (No projects listed in the JOHRTS FY 2023-2026 TIP)

The following appendices are contained within the TIP:

- Appendix A: Funding Categories
- Appendix B: Exempt Project Criteria
- Appendix C: Grouped Candidate Project Listing
- Appendix D: Environmental Studies
- Appendix E: Integration of Performance Measures
- Appendix F: Public Involvement Documentation
- Appendix G: MPO Self Certification
- Appendix H: Revisions (Will contain information regarding future revisions)

JOHRTS Area Description

The JOHRTS area consists of the three-county region of southeast Texas - Jefferson, Orange, and Hardin Counties. The area covers the corporate limits of the cities of Beaumont, Bevil Oaks, Bridge City, China, Groves, Kountze, Lumberton, Nederland, Nome, Orange, Pine Forest, Pinehurst, Port Arthur, Port Neches, Rose City, Rose Hill Acres, Silsbee, Sour Lake, Taylor Landing, Vidor, and West Orange. The JOHRTS metropolitan planning area is shown in Figure 1. Due to the predominance of the petrochemical industry and their significance as major manufacturing and industrial centers, the larger cities of Beaumont, Port Arthur, and Orange are often referred to as the “Golden Triangle.” The JOHRTS area contains the Beaumont and Port Arthur urbanized areas, and is characterized by agricultural, industrial, and low-density residential and commercial land uses.

At the time of the 2010 Census, the JOHRTS area had a population of 388,745, an increase of 1 percent from the previous decade and the highest population ever recorded for the three-county region. Hardin County saw the highest percentage of growth, with a 15 percent increase in population; Jefferson County’s population increased by one tenth of a percentage point, while Orange County lost about 4 percent of its population.

Figure 1: JOHRTS Metropolitan Planning Area

Federal and State Requirements

Bipartisan Infrastructure Law (BIL)

On November 15, 2021, President Joe Biden signed into law the Infrastructure Investment and Jobs Act (IIJA), referred to as the Bipartisan Infrastructure Law (BIL). The BIL provides \$550 billion over fiscal years 2022 through 2026 in new federal investment in infrastructure, including for roads, bridges, mass transit, water infrastructure, resilience, and broadband.

For highway programs specifically, the BIL provides \$350.8 billion over fiscal years 2022 through 2026. The BIL includes more than a dozen new highway programs, including:

- Formula: resilience, carbon reduction, bridges, and electric vehicle (EV) charging infrastructure.
- Discretionary: bridges, EV charging infrastructure, rural projects, resilience, wildlife crossings, and reconnecting communities.

Overall, the BIL focuses on safety, bridges, climate change, resilience, and project delivery.

The information in this section is provided to acknowledge the existence of the BIL and to note its implications for transportation planning. The emergence of the BIL does not represent an abandonment of the programs and planning requirements established under the *Fixing America's Surface Transportation (FAST) Act*, the *Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)*, and *Moving Ahead for Progress in 21st Century (MAP-21)*, the previous federal transportation bills. In fact, many of the same programs and metropolitan planning requirements are continued under the BIL.

Fixing America's Surface Transportation (FAST) Act

The previous surface transportation funding bill, the *Fixing America's Surface Transportation (FAST) Act*, was signed into law by President Obama on December 4, 2015.

All transportation projects and programs must address the FAST Act planning factors in order to provide a safe, energy-efficient, and environmentally sound movement of persons and goods on the regional transportation system. These planning factors call for transportation planning to:

- 1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- 2) Increase the safety of the transportation system for motorized and nonmotorized users;
- 3) Increase the security of the transportation system for motorized and nonmotorized users;
- 4) Increase the accessibility and mobility of people and for freight;

- 5) Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
- 6) Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- 7) Promote efficient system management and operation;
- 8) Emphasize the preservation of the existing transportation system;
- 9) Improve the resiliency and reliability of the transportation system;
- 10) Reduce or mitigate stormwater impacts of surface transportation; and
- 11) Enhance travel and tourism.

The FAST Act introduced supplemental actions for all MPOs to remain in compliance with federal requirements. The SETRPC-MPO has taken the following actions to remain in compliance:

- 1) The Public Participation Plan (PPP) was updated to include a) public ports; b) private providers of transportation (including intercity bus operators, employer-based commuting programs, such as carpool program, vanpool program, transit benefits program, parking cash-out program, shuttle program, or telework program). (Ref: 23 CFR 450.316(a))
- 2) The MTP-2045 demonstrated consultation with agencies involved in a) tourism; b) natural disaster risk reduction. (Ref: 23 CFR 450.316(b))
- 3) The SETRPC-MPO, TxDOT, and the providers of public transportation (BMT, PAT, and SETT) jointly agreed upon and developed specific written provisions for cooperatively developing and sharing information related to: a) transportation performance data; b) the selection of performance targets; c) the reporting of performance targets; d) the reporting of performance to be used in tracking progress toward attainment of critical outcomes for the region of the MPO & the collection of data for the State asset management plan for the NHS. (Ref: 23 CFR 450.314(h))
- 4) The MTP-2045 incorporated two new planning factors within the metropolitan transportation planning process: a) Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; b) Enhance travel and tourism. (Ref: 23 CFR 450.206(a)(9&10) and 306(b)(9&10))
- 5) The MTP-2045 included an assessment of capital investment and other strategies to preserve the existing and future transportation system and reduce the vulnerability of the existing transportation infrastructure to natural disasters. (Ref: 23 CFR 450.324(f)(7)).
- 6) The MTP-2045 included a description of the (Federally required) performance measures and performance targets used in assessing the performance of the transportation system. (Ref: 23 CFR 450.324(f)(3))
- 7) The MTP-2045 included a system evaluation report evaluating the condition and performance of the transportation system with respect to the (Federally required)

performance targets including progress achieved by the MPO toward the performance targets. (Ref: 23 CFR 450.324(f)(4))

- 8) The TIP includes (to the maximum extent practicable) a description of the anticipated effect of the TIP toward achieving the performance targets identified by the State in the long-range statewide transportation plan and by MPO in the MTP. (Ref: 23 CFR 450.218(q) and 326(d))
- 9) The TIP includes a linkage from the investment priorities in the TIP to achievement of performance targets in the plans. (Ref: 23 CFR 450.218(q) and 326(d))

The SETRPC-MPO continues to address these requirements through coordination, consultation, and implementation between the SETRPC-MPO and different agencies and stakeholder groups. By adhering to these requirements, the SETRPC-MPO continues to develop a safe, efficient, and resilient transportation network for all users.

Performance Management

In 2012, MAP-21 directed the United States Department of Transportation (USDOT) to establish a set of performance measures to increase the accountability and transparency of the federal highway and transit programs and improve project decision making through performance-based planning and programming by a rulemaking process. After national performance measures are established through a rulemaking, the state departments of transportation (DOTs) and transit providers must:

- Establish performance targets that reflect the national measures,
- Report on progress towards achieving those targets,
- Develop performance-based plans for safety and asset management, and
- Implement a performance-based approach to planning and programming.

Transportation performance management is a strategic approach that uses system data to make investment and policy decisions to achieve national performance goals. Monitoring progress towards achieving these national performance goals is accomplished by establishing performance targets for key performance measures. Using a performance-based approach, decision makers can apply key information and data to understand the consequences of investment decisions across transportation modes.

As part of performance management, recipients of federal aid highway funds will make transportation investments to achieve performance targets that make progress toward the following national goals shown in Table 1.

Table 1: National Performance Management Goals

GOAL AREA	NATIONAL GOAL
Safety	To achieve a significant reduction in traffic fatalities and serious injuries on all public roads
Infrastructure Condition	To maintain the highway infrastructure asset system in a state of good repair
Congestion Reduction	To achieve a significant reduction in congestion on the National Highway System
System Reliability	To improve the efficiency of the surface transportation system
Freight Movement and Economic Vitality	To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
Environmental Sustainability	To enhance the performance of the transportation system while protecting and enhancing the natural environment
Reduced Project Delivery Delays	To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices

In a series of rulemakings, FHWA and FTA are establishing national performance measures in areas such as safety, infrastructure condition, system performance, and transit asset management. The *Final Rule on Statewide and Nonmetropolitan Transportation Planning and Metropolitan Transportation Planning* (May 27, 2016) established the requirement that states, MPOs, and transit providers use performance measures to document expectations for future performance. Each state/transit provider will have one year after the final rulemaking for each set of performance measures to establish performance targets. MPOs are required to establish performance targets within 180 days after the state or transit provider has established performance targets.

The U.S. Department of Transportation (USDOT) has published the following rulemakings which establish national performance measures for which state DOTs, transit providers, and MPOs must establish performance targets:

- *Safety Performance Management Final Rule*
- *Infrastructure Condition Performance Management Final Rule*
- *System Performance Final Rule*
- *Transit Asset Management (TAM) Final Rule*

The SETRPC-MPO will maintain awareness of the performance management process at both the federal and state level and will continue to implement performance targets at the MPO level as appropriate. The integration of performance management into the TIP is documented in **Appendix**

E: Integration of Performance Measures. If the process of implementing performance targets requires additions or changes to the MTP and TIP, the documents will be amended in the future.

TIP Financial Summary

Transportation legislation mandates fiscal responsibility in the preparation of all transportation plans and programs. In particular, the TIP is required to include a financial summary that outlines the source and amount of expected funds for all submitted projects. FHWA and FTA funding requirements also mandate that all highway and transit projects receiving federal, state, or locally significant funding be identified and prioritized in the TIP. A project may not be included in the TIP if full funding cannot be reasonably anticipated before the project is let for construction or implementation. The financial summary for this JOHRTS FY 2023-2026 TIP is shown in **Financial Summary** section of the document.

Public Involvement

Citizen involvement remains an important component of the transportation planning process in the JOHRTS area. The SETRPC-MPO develops and maintains the Public Participation Plan (PPP), which provides the public an opportunity to contribute ideas and voice opinions on the preparation of all transportation plans and programs. As part of developing and/or revising the TIP, the SETRPC-MPO is required by federal regulations to provide the public with opportunities to be involved in the planning process. The following activities are outlined in the PPP for TIP public involvement:

For New TIP Developments:

- The new TIP requires a thirty-day public review and comment period.
- A formal public meeting is required in each county during the preparation of a new TIP.

For TIP Amendments or Updates:

- All TIP amendments and updates require a thirty-day public review and comment period.
- Formal public meetings are required when projects are added to or deleted from the TIP.

Title VI

The JOHRTS PPP includes Title VI/Environmental Justice (EJ) principles on providing opportunities for potentially disadvantaged persons to participate in the planning process. In addition, the PPP supports Executive Order #13166 (Improving Access to Services for Persons with Limited English Proficiency). The SETRPC-MPO maintains a Title VI/Environmental Justice Program and a Limited English Proficiency Plan for the JOHRTS region. The JOHRTS PPP, Title VI/Environmental Justice Program, and Limited English Proficiency Plan ensure opportunities to increase communication and dialogue between decision-makers and the public.

Americans with Disabilities Act

The SETRPC-MPO promotes projects and programs that provide quality transportation services to disabled persons in southeast Texas (for example, paratransit services and pedestrian improvements). Although funding is not likely to increase between 2023 and 2026, South East Texas Transit (SETT), the area's rural transportation system, will strive to accommodate the increase in demand for its services that may occur.

Beaumont Municipal Transit (BMT) and Port Arthur Transit (PAT) will continue to enhance their paratransit services. Both BMT and PAT will consider replacing or purchasing paratransit vehicles upon receiving additional transit funds from the FTA, in accordance with their respective Transit Asset Management Plans.

Air Quality Standards

In southeast Texas, the petrochemical facilities, power plants, automobiles, and vegetation produce volatile organic compound (VOC) and nitrogen oxide (NOx) emissions that contribute to the formation of ozone, a harmful gas that degrades the quality of the air and damages the atmosphere. The 1990 Federal Clean Air Act amendments authorized the EPA to designate areas failing to meet the National Ambient Air Quality Standard (NAAQS) for ozone as nonattainment for the standard. The SETRPC-MPO promotes the development of transportation projects and programs that reduce VOC and NOx emissions and decrease the formation of ozone.

Attainment Status

The Beaumont-Port Arthur ozone maintenance area (Hardin, Jefferson, and Orange Counties) was re-designated from nonattainment to attainment-maintenance for the 1998 eight-hour ozone National Ambient Air Quality Standard (NAAQS), effective November 19, 2010. The area was initially designated attainment/unclassifiable for the subsequent 2008 and 2015 eight-hour ozone NAAQS and remains in attainment for both standards. When the 1997 eight-hour ozone NAAQS was revoked by the EPA, transportation conformity requirements for that standard were also revoked (effective April 6, 2015). Due to its designation as attainment/unclassifiable for the 2008 and 2016 eight-hour ozone NAAQS, the Beaumont-Port Arthur area has not been subject to transportation conformity requirements since 2015.

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit issued an opinion in the case *South Coast Air Quality Management District v. EPA*, 882 F.3d 1138 (South Coast II). The case was a challenge to EPA's 2008 eight-hour ozone NAAQS state implementation plan (SIP) requirements rule (80 FR 12264), which revoked the 1997 eight-hour ozone NAAQS as part of implementing the more stringent 2008 eight-hour ozone NAAQS. The court's decision vacated parts of the EPA's 2008 eight-hour ozone NAAQS SIP requirements rule, including waiving requirements for transportation conformity for maintenance areas under the revoked 1997 eight-hour ozone

NAAQS. In response to the South Coast II decision, the EPA published *Transportation Conformity Guidance for the South Coast II Court Decision* on November 29, 2018. The guidance document was published to assist affected areas as they reestablished compliance with transportation conformity requirements under the revoked 1997 eight-hour ozone. NAAQS. Based on the November 2018 guidance, affected areas may demonstrate conformity if the following requirements are met:

- Use of latest planning assumptions;
- Interagency consultation;
- Fiscal constraint for the MTP and TIP; and
- Timely implementation of transportation control measures (TCM), if applicable.

Based on these regulations and court rulings, the JOHRTS area is classified as in conformity for all air quality standards.

The conformity determination from the United States Department of Transportation (USDOT) is shown in Figure 2, and a recent memorandum from the Federal Highway Administration (FHWA) on the conformity determination is shown in Figure 3.

HPP-TX

South East Texas Regional Planning Commission – Metropolitan
Planning Organization (SETRPC – MPO)
Transportation Conformity Determination for the
Metropolitan Transportation Plan 2045
and Revised FY 2019-2022 Transportation Improvement Program

Mr. James M. Bass, Executive Director
Texas Department of Transportation
125 E. 11th Street
Austin, TX 78701-2483

Dear Mr. Bass

We have reviewed the transportation conformity determination and supporting documentation for the South East Texas Regional Planning Commission-Metropolitan Planning Organization's (SETRPC-MPO) Metropolitan Transportation Plan 2045 (MTP 2045) and Revised FY 2019-2022 Transportation Improvement Program (Revised 2019-2022 TIP), adopted by the Transportation Planning Committee (Policy Board) on July 18, 2019.

Based upon our review and consultation with the U.S. Environmental Protection Agency (EPA), the Texas Commission on Environmental Quality (TCEQ), and the Texas Department of Transportation (TxDOT), we hereby find

that the MTP 2045 and Revised 2019-2022 TIP meet the requirements for making a joint conformity determination under the Clean Air Act Amendments of 1990 and EPA's November 29, 2018 *Transportation Conformity Guidance for the South Coast II Decision*.

Additionally, we find

that the MTP 2045 satisfactorily complies with the requirements of 23 CFR §450.324 regarding the development and content of metropolitan transportation plans; and

that the Revised 2019 – 2022 TIP satisfactorily complies with the requirements of 23 CFR §450.326 regarding the development and content of transportation improvement programs.

Figure 2: USDOT Conformity Determination Continued...

This conformity determination addresses project changes as adopted by the MPO's Policy Board and reflected in the corresponding MTP and TIP.

The interagency consultative partners have indicated that transportation conformity has been demonstrated in their letters dated: October 23, 2019 for TxDOT, November 18, 2019 for TCEQ, and November 19, 2019 for EPA.

The conformity determination and procedures used to make this determination are in accordance with the provisions of the transportation conformity rule (40 CFR Parts 51 and 93), dated August 15, 1997, as amended; and EPA's November 29, 2018 *Transportation Conformity Guidance for the South Coast II Court Decision*.

Please note this action restarts the 5-year time clock associated with the update of the transportation plan and the 4-year time clock associated with the demonstration of transportation conformity.

The Federal Highway Administration (FHWA) acts as executive agent for the Federal Transit Administration (FTA) on metropolitan transportation plan and transportation improvement program air quality conformity determinations. Accordingly, this letter will serve as a joint FHWA/FTA conformity determination.

Should you have any questions concerning this action, please contact Jose Campos at Jose.Campos@dot.gov or (512) 536-5932, Barbara Maley at Barbara.Maley@dot.gov or (214) 224-2175 or Anthony Jones at Anthony.M.Jones@dot.gov or (512) 536-5936.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Achille Alonzi', with a stylized flourish at the end.

Achille Alonzi
Division Administrator

Scott and Bob:

Based on our review of the information provided and the proposed project changes (attached), we do not believe that a new regional transportation conformity determination is warranted.

This is based on our understanding that:

- design concept and design scope is not changing; and
- no new projects are being added to the 2045 Plan; and
- no projects are being deleted from the 2045 Plan; and
- the existing conformity determination (Nov-2019) is not constrained by analysis years.

Consultative Partners:

Should you have questions, comments and/or concerns regarding this determination, please do not hesitate to contact us.

Anthony, as we discussed, here is the list of projects. Thanks, Bob

TIP Project Selection Process

Project Sources

The project selection process for the TIP is considered a subset of the JOHRTS Project Selection Process, which is a coordinated effort between the SETRPC-MPO and regional entities to identify and prioritize projects during each four-year MTP cycle. Projects included in the TIP are selected from the following sources:

- From *last two fiscal years'* projects of the previous TIP
- Projects that have not let for construction can also be advanced from earlier fiscal years of the previous TIP
- Projects from the financially constrained component of the MTP
- From the Texas Department of Transportation's (TxDOT) ten-year *Unified Transportation Program* (UTP), including environmental and feasibility studies
- Additional projects from local governments, transit agencies, and other member agencies

Selection Criteria

All selected projects must satisfy the following criteria:

- Be consistent with the JOHRTS area long-range goals as defined in the current MTP
- Demonstrate support in achieving performance targets
- Have a committed match-funding source and cost estimate by the project sponsor
- Federal and state-funded projects must be located on a TxDOT / FHWA approved functional classification system

Submittal Content

Projects that are selected during a TIP update or through quarterly revisions need to include the following information:

- MPO Project ID (identification) number
- Control-Section-Job (CSJ) number
- Project name / location and limits
- Brief description of project
- Funding category and number

- Project costs (includes federal, state, and local contribution funds) [Also list federal and state funds that are apportioned by different funding sources]
- Let and Revision dates
- Project phase (if available)

Amendments

TIP revisions are typically conducted on a quarterly basis. Examples of changes that **require** a TIP revision include:

- Adding federally funded projects
- Adding regionally significant state funded projects
- Changing the estimated cost of a project that results in a 50% increase in cost and a cost that exceeds \$1.5 million
- Changes to project limits or scope of work for federally funded projects
- Changing the funding sources for a project from non-federal to federal funds

Examples of changes that **do not require** a TIP revision include:

- Changes to project identification numbers (such as Control-Section-Job (CSJ) numbers)
- Updating the project's let date
- Change in the estimated cost of a project that does one, but not both, of the following: a) exceeds 50% and b) results in a cost exceeding \$1.5 million
- Splitting or combining projects without modification to original project design concept and scope
- Modifying the project cost estimate without altering the limits or scope
- Moving a project from one federal funding category to another
- Moving a project from one state funding category to another
- Changing a project's funding source from federal to state funding
- Changes to projects within the "grouped" category

Project Listing Information

This section explains the attributes for the information provided in the project listing.

Control-Section-Job Number

A project identification number assigned by TxDOT for projects included in the UTP or their Project Development Program.

MPO ID Number

The MPO's assigned project identification number for the database tracking of all transportation projects listed in the JOHRTS MTP and TIP. The following information provides a description of the Project ID numbers (with the first five digits as a constant identifier for project tracking, while the last four digits may be modified during the PSP).

Columns 1 & 2 (94026-F15E) list the last two digits of the year a project was first submitted into the MTP Project Selection Process.

Columns 3, 4, & 5 (94026-F15E) represent a sequential number assigned during the submittal year (number assigned to the project from the MPO's key list).

Column 6 (94026-F15E) identifies the primary funding source of the project: Federal [F], State [S], Local [L], and Transit [T].

Columns 7 and 8 (94026-F15E) identify the network year for the projected completion of the project.

Column 9 (94026-F15E) signifies whether the project is exempt [E], non-exempt [N], or in the planning stage [P].

Exceptions in MPO ID Number annotation:

Feasibility Study – A feasibility study may be conducted prior to actually identifying a specific project; these work efforts are coded as 'FEA' in Columns 6, 7, and 8. There is no network year assigned to a feasibility study.

Environmental Study – An environmental study is a project that is undergoing preliminary engineering and environmental analysis consistent with early project development; these work efforts are coded as 'NEA' in Columns 6, 7, and 8. There is no network year assigned to an environmental study.

Right-of-Way – The right-of-way project development phase involves the acquisition of land to accommodate a proposed improvement. This phase follows environmental study and precedes

construction. This work effort is coded as 'ROW' in Columns 6, 7, and 8. There is no network year assigned to this project type.

Exempt Projects - Exempt projects are not typically modeled and are coded as 'XX' in Columns 7 and 8 as there is no network assignment. Some exempt projects, such as adding a continuous left turn lane, can be coded in the travel demand model; therefore, this type of project may have a network year assigned. Exempt projects must meet the criteria listed in Appendix B.

Projects beyond MTP plan year - These projects consist of two types. One type are those projects for which funding is identified to be available during the MTP plan period but that will not be operational within the plan period. The second type are projects included in the Unconstrained Component list of the MTP.

- 1) Projects with identified funding that are not expected to be operational during the MTP plan period do not have a network year assignment. Columns 7 and 8 are marked as 'NN'.
- 2) Projects in the Unconstrained Component have 'UNC' entered in Columns 6, 7, and 8.

Funding Category

Refer to Appendix A for a description of the funding categories used to classify federal and state funding of transportation projects and programs.

Revision Date

The Revision Date marks when a project or program is adopted into the state's short-range implementation plan.

Phase

Describes the current development phase(s) of a transportation project or program: Preliminary Engineering [E], Right of Way Acquisition [R], Construction [C], and Transfer [T].

Grouped Project Definitions

Ms. Jessica Butler, Director,
Transportation Planning and Program
Development
Texas Department of Transportation
125 E. 11th Street
Austin, TX 78701

Dear Ms. Butler:

In consultation with TPWD and TxDOT, the Federal Transit Agency and Federal Highway Administration have agreed to revise the group project definitions and notes as identified in the attached table. The revision is in accordance with 23 CFR 450.218 G) and applicable classifications under 23 CFR 771.117 (c) and (d) and/or 40 CFR part 93. This revision is effective immediately. For your reference, enclosed is a complete table of approved grouped project categories definitions and notes. If you have any questions, please contact me at 512-536-5940 or Jose Campos at 512 536 5932.

Sincerely yours,

Michael T. Leary

Michael T. Leary,
Director, Planning and Program Development
Federal Highway Administration

Exempt Projects

Safety

Railroad/highway crossing.
Projects that correct, improve, or eliminate a hazardous location or feature.
Safer non-Federal-aid system roads.
Shoulder improvements.
Increasing sight distance.
Highway Safety Improvement Program implementation.
Traffic control devices and operating assistance other than signalization projects.
Railroad/highway crossing warning devices.
Guardrails, median barriers, crash cushions .
Pavement resurfacing and/or rehabilitation.
Pavement marking.
Emergency relief(23 U.S.C. 125).
Fencing.
Skid treatments .
Safety roadside rest areas.
Adding medi ans.
Truck climbing lanes outside the urbanized area.
Lighting improvements.
Widening narrow pavements or reconstructing bridges (no additional travel lanes).
Emergency truck pullovers.

Mass Transit

Operating assistance to transit agencies.
Purchase of support vehicles.
Rehabilitation of transit vehicles¹ .
Purchase of office, shop, and operating equipment for existing facilities.
Purchase of operating equipment for vehicles (e.g., radios, fareboxes, lifts, etc.).
Construction or renovation of power, signal, and communications systems.
Construction of small passenger shelters and information kiosks.
Reconstruction or renovation of transit buildings and structures (e.g., rail or bus buildin gs, storage and maintenance facilities, stations, terminals, and ancillary structures).
Rehabilitation or reconstruction of track structures, track, and trackbed in existing rights-of-way.
Purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet¹ .
Construction of new bus or rail storage /maintenance facilities categorically excluded in 23 CFR part 771.

Air Quality

Continuation of ride -sharing and van-pooling promotion activities at current levels.
Bicycle and pedestrian facilities.

Other

Specific activities which do not involve or lead directly to construction, such as:

- Planning and technical studies.
- Grants for training and research programs.
- Planning activities conducted pursuant to titles 23 and 49 U.S.C.
- Federal-aid systems revisions.

Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to that action.
Noise attenuation.

Emergency or hardship advance land acquisitions (23 CFR 710.503).

Acquisition of scenic easements.

Plantings, landscaping, etc.

Sign removal.

Directional and informational signs.

Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities).

Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity changes.

Note: ¹ In PM₁₀ and PM_{2.5} nonattainment or maintenance areas, such projects are exempt only if they are in compliance with control measures in the applicable implementation plan.

Table 1

GROUPED PROJECT CSJs

Definition of Grouped Projects for use in the STIP
Revised February 23, 2021

PROPOSED CSJ	GROUPED PROJECT CATEGORY	DEFINITION
5000-00-950	PE-Preliminary Engineering	Preliminary Engineering for any project except added capacity projects in a nonattainment area. Includes activities which do not involve or lead directly to construction, such as planning and research activities; grants for training; engineering to define the elements of a proposed action or alternatives so that social, economic, and environmental effects can be assessed.
5000-00-951	Right of Way	Right of Way acquisition for any project except added capacity projects in a nonattainment area. Includes relocation assistance, hardship acquisition and protective buying.
5000-00-952 5000-00-957 5000-00-958	Preventive Maintenance and Rehabilitation	Projects to include pavement repair to preserve existing pavement so that it may achieve its designed loading. Includes seal coats, overlays, resurfacing, restoration and rehabilitation done with existing ROW. Also includes modernization of a highway by reconstruction, adding shoulders or adding auxiliary lanes (e.g., parking, weaving, turning, climbing, passing, non-added capacity) or drainage improvements associated with rehabilitation [See Note 3].
5000-00-953	Bridge Replacement and Rehabilitation	Projects to replace and/or rehabilitate functionally obsolete or structurally deficient bridges.
5000-00-954	Railroad Grade Separations	Projects to construct or replace existing highway-railroad grade crossings and to rehabilitate and/or replace deficient railroad underpasses, resulting in no added capacity
5800-00-950	Safety	Projects to include the construction or replacement/rehabilitation of guard rails, median barriers, crash cushions, pavement markings, skid treatments, medians, lighting improvements, highway signs, curb ramps, railroad/highway crossing warning devices, fencing, intersection improvements (e.g., turn lanes), signalization projects and interchange modifications. Also includes projects funded via the Federal Hazard Elimination Program, Federal Railroad Signal Safety Program, or Access Managements projects, except those that result in added capacity.

Table 1

GROUPED PROJECT CSJs

Definition of Grouped Projects for use in the STIP
Revised February 23, 2021

PROPOSED CSJ	GROUPED PROJECT CATEGORY	DEFINITION
5000-00-956	Landscaping	Project consisting of typical right-of-way landscape development, establishment and aesthetic improvements to include any associated erosion control and environmental mitigation activities.
5800-00-915	Intelligent Transportation System Deployment	Highway traffic operation improvement projects including the installation of ramp metering control devices, variable message signs, traffic monitoring equipment and projects in the Federal ITS/IVHS programs.
5000-00-916	Bicycle and Pedestrian	Projects including bicycle and pedestrian lanes, paths and facilities (e.g., sidewalks, shared use paths, side paths, trails, bicycle boulevards, curb extensions, bicycle parking facilities, bikeshare facilities, etc.). Safe Routes to School non-infrastructure related activities (e.g. enforcement, tools, and education programs).
5000-00-917	Safety Rest Areas and Truck Weigh Stations	Construction and improvement of rest areas, and truck weigh stations.
5000-00-918	Transit Improvements and Programs	Projects include the construction and improvement of small passenger shelters and information kiosks. Also includes the construction and improvement of rail storage/maintenance facilities bus transfer facilities where minor amounts of additional land are required and there is not a substantial increase in the number of users. Also includes transit operating assistance, preventative maintenance of transit vehicles and facilities. acquisition of third-party transit services, and transit marketing, and mobility management/coordination. Additionally includes the purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet [See Note 4].
5000-00-919	Recreational Trails Program	Off-Highway Vehicle (OHV), Equestrian, Recreational Water/Paddling Trails and related facilities; Recreational Trails related education and safety programs.

Note 1: Projects eligible for grouping include associated project phases (Preliminary Engineering, Right-Of-Way and Construction).

Note 2: Projects funded with Congestion Mitigation Air Quality funding require a Federal eligibility determination, and are not approved to be grouped.

GROUPED PROJECT CSJs

Definition of Grouped Projects for use in the STIP
Revised February 23, 2021

Note 3: Passing lanes include "SUPER 2" lanes consistent with TxDOT's Roadway Design Manual.

Note 4: In PM10 and PM2.5 nonattainment or maintenance areas, such projects may be grouped only if they are in compliance with control measures in the applicable implementation plan.

Note 5: Projects funded as part of the Recreational Trails Program (RTP) and Transportation Alternatives (TA) Program consistent with the grouped project category definitions may be grouped. RTP or TA funded projects that are not consistent with the grouped project category definitions must be individually noted in the Transportation Improvement Program (TIP) and State Transportation Improvement Program (STIP). Road diet projects may not be grouped.

Appendix A: Funding Categories

This appendix includes a list and brief description of each category for transportation projects and programs used by the Texas Department of Transportation for distributing funds. These categories comply with federal transportation legislation to ensure that federal funds are applied to eligible projects.

This page is intentionally left blank.

Funding Categories

Texas Department of Transportation (TxDOT) Funding Categories:

- 1 **Preventive Maintenance and Rehabilitation:** Rehabilitation and preventative maintenance of the existing state highway system, including the Interstate Highway System main lanes, frontage roads, structures, signs, pavement markings, striping, etc.
- 2 **Metropolitan and Urban Corridor Projects:** Mobility and added capacity projects along a corridor that improve transportation facilities in order to decrease travel time and level or duration of traffic congestion and increase the safe and efficient movement of people and freight in metropolitan and urbanized areas.
- 3 **Non-Traditionally Funded Transportation Projects:** Transportation related projects that qualify for funding from sources not traditionally part of the state highway fund, including state bond financing under programs such as proposition 12, pass-through toll financing, unique federal funding, regional toll revenue, and local participation funding.
- 4 **Statewide Connectivity Corridor Projects:** Mobility and added capacity projects on major state highway systems corridors which provide statewide connectivity between urban areas and corridors.
- 5 **Congestion Mitigation and Air Quality Improvement:** Addresses attainment of national ambient air quality standards in current non-attainment areas. Funds cannot be utilized to add capacity for single occupancy vehicles.
- 6 **Structures-Replacement & Rehabilitation:** Replaces or rehabilitates eligible bridges on and off the state highway system. Eliminates at-grade highway/railroad crossings by providing grade separations and rehabilitates/replaces deficient railroad underpasses.
- 7 **Metropolitan Mobility & Rehabilitation:** Addresses various transportation needs within Transportation Management Areas selected by the Metropolitan Planning Organizations.
- 8 **Safety:** Addresses safety related projects on and off the state highway system. Includes safety improvements to high risk rural roads, projects selected via safety indices to eliminate hazards, and signal coordination and warning devices at railroad crossings.
- 9 **Enhancements:** Includes projects above and beyond typical transportation improvements, including on- and off-road pedestrian and bicycle pedestrian facilities, landscaping, historic preservation, environmental mitigation, and safety rest areas.
- 10 **Miscellaneous (Supplemental Transportation Projects):** Various projects including construction and rehabilitation of roadways within and adjacent to state parks and wildlife refuges; landscaping development projects; replacement of rough railroad crossing surfaces, maintenance of automatic railroad devices, and rehabilitation and/or improvement of railroad infrastructure; and construction or replacement of curb ramps at on-system intersections.

- 11 **District Discretionary:** Various projects on the state highway system selected at the district's discretion.
- 12 **Strategic Priority:** Commission-selected projects that promote economic opportunity, increase efficiency on military deployment routes, maintain the ability to respond to both man-made and natural emergencies, and address other various strategic needs.

Federal Transit Administration Funding Categories:

- FTA 5307** **Urbanized Area Formula Grant Program:** Program subsidizes the operating and/or capital cost of transit services. Eligible expenses include planning, engineering, most administration, preventive maintenance, fuel, parts, and operating costs.
- FTA 5309** **Capital Investment Program:** Divided into three categories: modernization of existing rail systems, new rail systems, and new and replacement buses and facilities. The bus category is the only one from which the JOHRTS region is eligible to receive funds. These funds are used to subsidize the purchase of buses, bus-related equipment and paratransit vehicles, and for the construction of bus-related facilities.
- FTA 5310** **Transportation for Elderly Persons and Persons with Disabilities:** Capital expenses that support transportation to meet the special needs of older adults and persons with disabilities.
- FTA 5311** **Rural Transit and Intercity Bus:** Capital, planning, and operating expenses for public transit in non-urbanized areas with a population under 50,000 as designated by the Bureau of the Census.
- FTA 5324** **Emergency Relief:** Funding for protecting, repairing, and/or replacing equipment and facilities that may suffer or have suffered serious damage as a result of an emergency, including natural disasters such as floods, hurricanes, and tornadoes.
- FTA 5339** **Buses and Bus Facilities:** Provides funding to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities.

The background of the page is composed of several overlapping geometric shapes. A large green shape occupies the left and bottom-left portions. A blue shape is in the top-right. A red shape is in the top-right corner. A dark blue shape is in the bottom-right. The text is centered in the green area.

Appendix B: Exempt Project Criteria

This page is intentionally left blank.

Exempt Project Criteria

This appendix provides information excerpted from **40 CFR Part 93: Transportation Conformity Rule** regarding project and program types that are considered exempt from being submitted as part of a transportation conformity determination analysis. This appendix is explanatory only and not applicable while the MPO is classified as within transportation conformity. The following criteria describe the exemption status for these types of projects and programs.

§93.126 Exempt Projects

Notwithstanding the other requirements of this subpart, highway and transit projects of the types listed in Table 2 are exempt from the requirement that a conformity determination be made. Such projects may proceed toward implementation even in the absence of a conforming transportation plan and TIP. A particular action of the type listed in Table 2 is not exempt if the MPO in consultation with other agencies (see §93.105(c)(1)(iii)), the EPA, and the FHWA (in the case of a highway project) or the FTA (in case of a transit project) concur that it has potentially adverse emissions impacts for any reason. States and MPOs must ensure that exempt projects do not interfere with TCM implementation.

Table 2. Exempt Projects

SAFETY
Railroad/highway crossing
Hazard elimination program
Safer non-Federal-aid system roads
Shoulder improvements
Increasing sight distance
Safety improvement program
Traffic control devices and operating assistance other than signalization projects
Railroad/highway crossing warning devices
Guardrails, median barriers, crash cushions
Pavement resurfacing and/or rehabilitation
Pavement marking demonstration
Emergency relief (23 U.S.C.125)
Fencing
Skid treatments
Safety roadside rest areas
Adding medians
Truck climbing lanes outside the urbanized area
Lighting improvements
Widening narrow pavements or reconstructing bridges (no additional travel lanes)
Emergency truck pullovers
MASS TRANSIT
Operating assistance to transit agencies
Purchase of support vehicles
Rehabilitation of transit vehicles ¹
Purchase of office, shop, and operating equipment for existing facilities

Purchase of operating equipment for vehicles (e.g., radios, fireboxes, lifts, etc.) Construction or renovation of power, signal, and communications systems Construction of small passenger shelters and information kiosks Reconstruction or renovation of transit buildings and structures (e.g., rail or bus buildings, storage and maintenance facilities, stations, terminals, and ancillary structures) Rehabilitation or reconstruction of track structures, track, and tracked in existing rights-of-way Purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet ¹ Construction of new bus or rail storage/maintenance facilities categorically excluded in 23 CFR 771
AIR QUALITY
Continuation of ride-sharing and vanpooling promotion activities at current levels Bicycle and pedestrian facilities
OTHER
Specific activities which do not involve or lead directly to construction, such as: <ul style="list-style-type: none"> • Planning and technical studies • Grants for training and research programs • Planning activities conducted pursuant to titles 23 and 49 U.S.C. • Federal-aid systems revisions Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to the action Noise attenuation Advance land acquisition (23 CFR 712 or 23 CFR 771) Acquisition of scenic easements Plantings, landscaping, etc. Sign removal Directional and informational signs Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities) Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity changes

¹In PM10 nonattainment or maintenance areas, such projects are exempt only if they are in compliance with control measures in the applicable implementation plan.

§93.127 Projects Exempt from Regional Emissions Analysis

Notwithstanding the other requirements of this subpart, highway and transit projects of the types listed in Table 3 are exempt from regional emissions analysis requirements. The local effects of these projects with respect to CO or PM10 concentrations must be considered to determine if a hot-spot analysis is required prior to making a project-level conformity determination. Such projects may then proceed to the project development process even in the absence of a conforming transportation plan and TIP. A particular action of the type listed in Table 3 is not exempt if the MPO in consultation with other agencies (see §93.105(c)(1)(iii)), the EPA, and the FHWA (in the case

of a highway project) or the FTA (in case of a transit project) concur that it has potential regional impacts for any reason.

Table 3. Projects Exempt from Regional Emissions Analysis

Intersection channelization projects
Intersection signalization projects at individual intersections
Interchange reconfiguration projects
Changes in vertical and horizontal alignments
Truck size and weight inspection stations
Bus terminals and transfer points

§93.128 Traffic Signal Synchronization Projects

Traffic signal synchronization projects may be approved, funded, and implemented without satisfying the requirements of this subpart. However, all subsequent regional emissions analyses required by §93.118 and §93.119 for all transportation plans, TIPs, or projects not from a conforming plan and TIP must include such regionally significant traffic signal synchronization projects.

This page is intentionally left blank.

Appendix C: Grouped Candidate Project Listing

This appendix provides a list of individual projects/programs considered to be of inappropriate scale for individual listing in a given program year. Additional projects/programs may be identified that are not currently listed. Grouping allows efficient programming and reduces the need for revisions to the TIP. No added capacity type projects or phases of added capacity type projects are included.

Appendix D: Environmental Studies

This appendix contains a list of projects that will undergo preliminary engineering and environmental analysis (PE/EA) consistent with early project development during the time frame of the Transportation Improvement Program (TIP).

This page is intentionally left blank.

The background consists of several overlapping geometric shapes. A large green shape occupies the left and bottom-left portions. A blue shape is in the top-right. A red shape is in the top-right corner. A dark blue shape is in the bottom-right. The text is centered in the green area.

Appendix E: Integration of Performance Measures

This page is intentionally left blank.

Introduction

Initiated as part of the 2012 Moving Ahead for Progress in the 21st Century (MAP-21) and continued in the 2015 Fixing America's Surface Transportation (FAST) Act, State Departments of Transportation (DOTs) and Metropolitan Planning Organizations (MPOs) are required to move towards a performance-based planning process with an emphasis on project selection based on specific planning factors. In the JOHRTS Metropolitan Transportation Plan (MTP) 2045 developed under FAST Act, the SETRPC-MPO focused on the following factors for selection of projects in its Fiscally Constrained Project List:

- Safety: Ability to reduce potential crashes based on the Safety Improvement Index (SII)
- Reduction factors for specific improvements
- Emergency Response: Identifies roadway improvements that enhance the provision of
- Emergency services
- Intermodal Benefits: Ability to improve the flow of intermodal transport along roadways in
- The most cost-effective and safety conscious manner
- Mobility: Improvement in roadway Level-of-Service (LOS)

On May 27, 2016, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) issued the Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning Final Rule. This regulation implements the transportation planning and transportation performance management provisions of MAP-21 and the FAST Act.

Pursuant with The Planning Rule, the Texas Department of Transportation (TxDOT) and each Texas MPO, including the SETRPC-MPO, must publish a System Performance Report for applicable performance measures in their respective statewide and metropolitan transportation plans and programs. The System Performance Report presents the condition and performance of the transportation system with respect to required performance measures, documents performance targets and progress achieved in meeting the targets in comparison with previous reports. Per the Planning Rule, the System Performance Report for the SETRPC-MPO FY 2023-2026 TIP is included for the required Safety (PM1), Bridge and Pavement Condition (PM2), System Performance (PM3), Transit Asset Management (TAM), and Public Transit Agency Safety Plan (PTASP) performance measures and targets.

Roadway Performance Measures and Targets

The SETRPC-MPO coordinates with the Texas Department of Transportation (TxDOT) and the Federal Highway Administration (FHWA) to establish and adopt performance measures and targets for the following performance areas: safety (PM1), pavement and bridge condition (PM2), and system performance (PM3).

SAFETY (PM1)

TxDOT has adopted its Strategic Highway Safety Plan, a data-driven statewide-coordinated safety plan to help reduce fatalities and serious injuries on all public roads. TxDOT established safety performance measures in the Highway Safety Improvement Program (HSIP) annual report dated August 31, 2022. These performance measures are:

- 1) Number of fatalities
- 2) Rate of fatalities per 100 million vehicle miles traveled
- 3) Number of serious injuries
- 4) Rate of serious injuries per 100 million vehicle miles traveled
- 5) Number of combined non-motorized fatalities and non-motorized serious injuries

Safety performance targets are provided annually by the States to FHWA for each safety performance measure. Current statewide safety targets address fiscal year 2023 and are based on an anticipated five-year rolling average (2019-2023). Texas statewide safety performance targets for 2023 are included in Table 1. The SETRPC-MPO adopted the Texas statewide safety performance targets on January 26, 2023.

Table 1: TxDOT Established Safety Performance Targets for FY 2023

2023 SAFETY TARGETS	NUMBER OF FATALITIES (FARS / CRIS / ARF DATA)	RATE OF FATALITIES (FARS / CRIS / ARF DATA)	NUMBER OF SERIOUS INJURIES (FARS / CRIS DATA)	SERIOUS INJURY RATE (CRIS DATA)	TOTAL NUMBER OF NON-MOTORIZED FATALITIES AND SERIOUS INJURIES (FARS / CRIS DATA)
2019	3,619	1.26	115,858	5.50	2,291
2020	3,874	1.49	14,659	5.63	2,206
2021	4,486	1.70	19,434	7.35	2,628
2022	3,272	1.25	17,539	6.70	2,321
2023	3,159	1.20	17,819	6.77	2,340
2023 Target as a 5-Year Average	3,682	1.38	17,062	6.39	2,357

The SETRPC-MPO recognizes the importance of linking goals, objectives, and investment priorities to stated performance objectives, and that establishing this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the JOHRTS FY 2023-2026 TIP planning process directly reflects the goals, objectives, performance measures, and targets as they are available and described in other State and public transportation plans and processes, the Texas Strategic Highway Safety Plan (SHSP), the Texas Highway Safety Improvement Program (HSIP), the current statewide Texas Transportation Plan 2050 (TTP), and the current JOHRTS Metropolitan Transportation Plan – 2045.

- The Texas Strategic Highway Safety Plan (SHSP) is intended to reduce the number of fatalities and serious injuries resulting from motor vehicle crashes on public roads in Texas. Existing highway safety plans are aligned and coordinated with the SHSP, including the Texas Highway Safety Improvement Program (HSIP), MPO and local agencies' safety plans. The SHSP guides TxDOT, Texas MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out across Texas.
- The TxDOT Highway Safety Improvement Program (HSIP) annual report provides for a continuous and systematic process that identifies and reviews traffic safety issues around the state. The goal of the HSIP process is to reduce the number of crashes, injuries and fatalities through the implementation of strategies and countermeasures structured around seven emphasis areas.
- The statewide Texas Transportation Plan 2050 (TTP) summarizes transportation needs across the state and identifies future funding projections for projects across transportation modes over the 25-year plan horizon.
- The SETRPC-MPO JOHRTS MTP-2045 increases the safety of the transportation system for motorized and non-motorized users as required by the Planning Rule. The MTP identifies safety needs within the metropolitan planning area and provides funding for targeted safety improvements.

To support progress towards approved highway safety targets, the JOHRTS FY 2023-2026 Transportation Improvement Program (TIP) includes safety investments.

Pavement and Bridge Condition (PM2)

The Pavement and Bridge Condition Rule (PM2) establishes performance requirements to assess conditions on the National Highway System (NHS) and outlines the process for State DOTs and MPOs to establish targets and report conditions. TxDOT adopted new pavement and bridge condition targets on February 9, 2023.

TxDOT adopted the following six (6) performance measures for PM2 on February 9, 2023:

- 1) Percent of Interstate System pavement in good condition or better condition,
- 2) Percent of Interstate System pavement in poor condition,
- 3) Percent of Non-Interstate National Highway System pavement in good condition,
- 4) Percent of Non-Interstate National Highway System pavement in poor condition,
- 5) Percent of Bridge Deck on the National Highway System in good condition, and
- 6) Percent of Bridge Deck on the National Highway System in poor condition

MPOs have 180 days from the adoption of performance measure targets by a state department of transportation to adopt those measures for the MPO or adopt their own targets. The SETRPC-MPO adopted the performance measures established by TxDOT for PM2 on June 15, 2023. These performance targets are shown in Table 2.

Table 2: TxDOT Established (PM2) Pavement and Bridge performance Measure Targets

PERFORMANCE MEASURE	STATEWIDE BASELINE	2 YEAR TARGET	4 YEAR TARGET
Pavement on Interstate System			
1) % in "Good" Condition	64.5%	63.9%	63.6%
2) % in "Poor" Condition	0.1%	0.2%	0.2%
Pavement on Non-Interstate			
3) % in "Good" Condition	51.7%	45.5%	46.0%
4) % in "Poor" Condition	1.3%	1.5%	1.5%
National Highway System Bridge Deck Condition			
5) % in "Good" Condition	49.2%	48.5%	47.6%
6) % in "Poor" Condition	1.1%	1.5%	1.5%

The SETRPC-MPO recognizes the importance of linking goals, objectives, and investment priorities to stated performance objectives, and that establishing this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the JOHRTS FY 2023-2026 TIP planning process directly reflects the goals, objectives, performance measures, and targets as they are available and described in other State and public transportation plans and processes specifically, the current statewide Texas Transportation Plan 2050 (TTP) and the SETRPCMPO JOHRTS MTP-2045.

- The TTP 2050 summarizes transportation needs across the state and identifies future funding projections for projects across transportation modes over the 25-year plan horizon.
- The SETRPC-MPO JOHRTS MTP-2045 addresses infrastructure preservation and identifies pavement and bridge infrastructure needs within the metropolitan planning area and allocates funding for targeted infrastructure improvements.

To support progress towards TxDOT’s statewide PM2 targets, the JOHRTS FY 2023-2026 TIP investments that will maintain pavement and bridge condition performance. Investments in pavement and bridge condition could include pavement replacement and reconstruction, bridge replacement and reconstruction, new bridge and pavement capacity, and system resiliency projects that improve NHS bridge components.

SYSTEM PERFORMANCE (PM3)

The System Performance rule (PM3) establishes performance measure requirements to assess the performance of the National Highway System (NHS) and to assess freight movement on the Interstate System. These measures focus on evaluating travel time reliability and travel delays on interstate, freeway, and principal arterial class facilities to determine whether the magnitude of travel time variability is considered unreasonable. The objective of the rule is to ensure efforts to improve unreasonable travel delays and expedite the movement of people and goods, furthering the national goal of improving the efficiency of the surface transportation system.

Each MPO and state department of transportation must establish 2- and 4-year performance targets to assess the travel time reliability of all traffic on the National Highway System (NHS) and the travel reliability of national freight movement on the Interstate System. On February 9, 2023, the Texas Department of Transportation adopted revised travel time reliability targets for three performance measures. The MPO can either adopt a separate set of travel time reliability targets or support the targets approved by TxDOT. The SETRPC-MPO adopted the performance measures established by TxDOT for PM2 on June 15, 2023. These performance targets are shown in Table 3.

Table 3: System Performance (PM3) Measures and Targets

PERFORMANCE MEASURE	STATEWIDE BASELINE	2 YEAR TARGET	4 YEAR TARGET
National Highway System Travel Time Reliability			
1) Percentage of the Person-Miles Traveled on the Interstate that are Reliable	84.6%	97%	95%
2) Percent of the Person-Miles Traveled on the Non- Interstate NHS that are Reliable	90.3%	70%	70%
3) Truck Travel Time Reliability (TTTR) Index	1.39	1.55	1.55

The SETRPC-MPO recognizes the importance of linking goals, objectives, and investment priorities to stated performance objectives, and that establishing this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the JOHRTS FY 2023-2026 TIP planning process directly reflects the goals, objectives, performance measures, and targets as they are available and described in other State and public transportation plans and processes specifically, the Texas Freight Mobility Plan, the current statewide Texas Transportation Plan 2050 (TTP), and the JOHRTS MTP-2045.

- The Texas Freight Mobility Plan defines the conditions and performance of the state freight system and identifies the policies and investments that will enhance Texas highway freight mobility well into the future. The Plan identifies freight needs and the criteria Texas will use to determine investments in freight and prioritizes freight investments across modes.
- The TTP 2050 summarizes transportation needs across the state and identifies future funding projections for projects across transportation modes over the 25-year plan horizon.
- The JOHRTS MTP-2045 addresses reliability, freight movement, congestion, and identifies needs for each of these issues within the metropolitan planning area and allocates funding for targeted improvements.

To support progress towards TxDOT’s statewide PM3 targets, the JOHRTS FY 2023-2026 TIP devotes resources to projects that will address passenger and highway freight reliability and delay.

Public Transportation / Transit Performance Measures and Targets

The SETRPC-MPO coordinates with the Beaumont Municipal Transit (BMT), Port Arthur Transit (PAT), South East Texas Transit (SETT), and the Federal Transit Authority (FTA) to establish and adopt performance measures and targets for the following performance areas: transit asset management (TAM) and Public Transportation Agency Safety Plans (PTASP).

TRANSIT ASSET MANAGEMENT PERFORMANCE MEASURES AND TARGETS (TAM)

The Federal Transit Administration (FTA) Transit Asset Management (TAM) Final Rule requires public transit providers to establish and implement TAM plans. The TAM plans for tier II providers must include a transit asset inventory, condition assessment of the inventoried assets, documentation of the provider's decision support tools/process, and a list of investment priorities to improve the state of good repair (SGR) of the provider's capital assets. SGR is defined as the condition in which a capital asset is able to operate at a full level of performance. The premise of the rule is the condition of assets should guide funding prioritization. The rule also outlines the process for State departments of transportation, MPOs, and transit providers to establish and report their transit asset performance targets, and the process FTA will use to assess whether transit providers have met or made significant progress toward meeting their performance targets.

FTA requires public transit providers to review and update their TAM plans at least once every four years. In 2018, Beaumont Municipal Transit, Port Arthur Transit, and South East Texas Transit developed their own TAM plans in accordance with the TAM Final Rule. The TAM plans were updated in 2022, which account for each transit provider's recent asset inventories, condition assessment, and expectations for asset procurement and improvements along with performance targets for fiscal years 2022 and 2023.

Beaumont Municipal Transit, Port Arthur Transit, and South East Texas Transit have approved the proposed updates to the transit asset performance targets for the federally required transit asset types. The MPO can either adopt a separate set of targets for the transit assets or support the targets approved by the transit agencies. The SETRPC-MPO adopted the performance measures established by Beaumont Municipal Transit, Port Arthur Transit, and South East Texas Transit for TAM on June 15, 2023. These performance targets are shown in Table 4.

Table 4: Transit Asset Management Performance Measures and Targets

ASSET CATEGORY	ASSET CLASS	ASSET TYPE	FY 22 TARGET FOR EXCEEDING USEFUL LIFE BENCHMARK* (%)	FY 23 TARGET FOR EXCEEDING USEFUL LIFE BENCHMARK (%)
Rolling Stock	Revenue Vehicle	Bus	20%	20%
		Cutaway Bus	10%	10%
		Van	10%	10%

ASSET CATEGORY	ASSET CLASS	ASSET TYPE	FY 22 TARGET FOR EXCEEDING USEFUL LIFE BENCHMARK* (%)	FY 23 TARGET FOR EXCEEDING USEFUL LIFE BENCHMARK (%)
Equipment	Non-Revenue Vehicle	Automobile	80%	80%
		Trucks and Other Rubber Tire Vehicles	40%	40%

ASSET CATEGORY	ASSET CLASS	ASSET TYPE	FY 22 TARGET FOR BELOW 3** ON TERM*** SCALE (%)	FY 23 TARGET FOR BELOW 3 ON TERM SCALE (%)
Facility	Maintenance or Administrative Facility	Administrative Offices and Maintenance Shop / Yard	10%	10%
	Passenger or Parking Facility	Station / Transit Terminal	10%	10%

*Useful Life Benchmark (ULB): defined by FTA as the expected amount of time in years that a vehicle

type is estimated to function, when acquired new and assuming routine maintenance is practiced.

** Based on the TERM scale, an asset is in a state of good repair if it has a rating of 3 or over on the TERM scale

*** FTA's Transit Economic Requirements Model (TERM). The TERM scale assigns numerical ratings from 1.0 (poor) to 5.0 (excellent) based on condition.

The SETRPC-MPO recognizes the importance of linking goals, objectives, and investment priorities to stated performance objectives, and that establishing this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the JOHRTS FY 2023-2026 TIP planning process directly reflects the goals, objectives, performance measures, and targets as they are available and described in other State and public transportation plans and processes, specifically, the current statewide Texas Transportation Plan (TTP) 2050 and the JOHRTS Metropolitan Transportation Plan 2045 (MTP).

- The TTP 2050 summarizes transportation needs across the state and identifies future funding projections for projects across transportation modes over the 25-year plan horizon.
- The JOHRTS MTP-2045 addresses and identifies transit needs within the metropolitan planning area and allocates funding for targeted improvements.

To support progress towards the TAM targets, the JOHRTS FY 2023-2026 TIP devotes resources to projects that will address transit asset management.

PUBLIC TRANSPORTATION AGENCY SAFETY PLAN (PTASP)

Under the Federal Transit Administration’s (FTA) Public Transportation Agency Safety Plan (PTASP) Rule, applicable transit agencies are required to develop safety plans that define how these agencies will implement Safety Management Systems (SMS). These transit plans are required to include targets for performance measures defined in the National Public Transportation Safety Plan, which relate to fatalities, injuries, safety events, and system reliability. MPOs are federally required to set performance targets for these transit safety performance measures for their regions, in coordination with transit and state agencies. These requirements acknowledge the collaborative relationships needed to manage safety risks on transit systems.

Beaumont Municipal Transit and Port Arthur Transit are the only transit agencies within the metropolitan area utilizing FTA's Urbanized Area Formula Grants federal funds. Beaumont Municipal Transit and Port Arthur Transit have adopted transit safety performance targets for each performance measure. The SETRPC-MPO adopted the performance measures established by Beaumont Municipal Transit and Port Arthur Transit for PTASP on June 15, 2023. These performance targets are shown in Table 5.

Table 5: Public Transportation Agency Safety Plan (PTASP) Performance Measures and Targets

MODE	FATALITIES (TOTAL)	FATALITIES (PER 100,000 VRM*)	INJURIES (TOTAL)	INJURIES (PER 100,000 VRM)	SAFETY EVENTS (TOTAL)	SAFETY EVENTS (PER 100,000 VRM)	SYSTEM RELIABILITY (VRM BETWEEN FAILURES)
Fixed Route Bus	0	0	<3	<0.33	<2	<0.66	>10,000

MODE	FATALITIES (TOTAL)	FATALITIES (PER 100,000 VRM*)	INJURIES (TOTAL)	INJURIES (PER 100,000 VRM)	SAFETY EVENTS (TOTAL)	SAFETY EVENTS (PER 100,000 VRM)	SYSTEM RELIABILITY (VRM BETWEEN FAILURES)
Demand Response Bus	0	0	0	0	<2	<0.8	>50,000

The SETRPC-MPO recognizes the importance of linking goals, objectives, and investment priorities to stated performance objectives, and that establishing this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the JOHRTS FY 2023-2026 TIP planning process directly reflects the goals, objectives, performance measures, and targets as they are available and described in other State and public transportation plans and processes, specifically, the current statewide Texas Transportation Plan (TTP) 2050 and the JOHRTS Metropolitan Transportation Plan 2045 (MTP).

- The TTP 2050 summarizes transportation needs across the state and identifies future funding projections for projects across transportation modes over the 25-year plan horizon.
- The JOHRTS MTP-2045 addresses and identifies transit needs within the metropolitan planning area and allocates funding for targeted improvements.

To support progress towards the PTASP targets, the JOHRTS FY 2023-2026 TIP devotes resources to projects that will transit safety.

The JOHRTS FY 2023 – FY 2026 Transportation Improvement Program

The SETRPC MPO staff have reviewed projects in the TIP for compliance with four performance measures as mandated by federal law. The three performance measures are safety (PM1), pavement and bridge condition (PM2), and system performance (PM3). The TIP and any amendments to the TIP were also reviewed to determine their relevance to the Transit Asset Management Plan developed for Beaumont Municipal Transit (BMT), Port Arthur Transit (PAT), and South East Texas Transit (SETT). In addition, the TIP and any amendments to the TIP were reviewed to determine their relevance to the Public Transportation Agency Safety Plans (PTASP) developed for BMT and PAT.

Because the JOHRTS Area Metropolitan Transportation Plan (MTP) 2045 included selection criteria based on safety, most of the highway projects included in the TIP have significant impact on improving safety and travel time reliability, and thus help work towards the safety and travel time reliability targets. These projects include:

- US 69, Tyler County line to 0.75 miles south of FM 1003. The facility will be upgraded to current design and safety standards which will improve driver comfort level and mobility. Current instances of stopped or slowed vehicles on the main lanes is expected to be reduced, thus lessening chances of rear-end collisions. In addition, the proposed improvements are expected to increase mobility along a route that delivers military vehicles and equipment to the Port of Beaumont for transport and provides hurricane

evacuation for south Jefferson County. This improvement is a new 4 lane divided facility with a median barrier.

- US 69, US 96 South to Jefferson County line & US 69, Hardin County Line to Tram Road. The facility will be widened from two to four lanes and upgraded to current design and safety standards.
- IH-10, Jefferson County, from Hollywood overpass to 7th Street. The facility will be widened from four to six main lanes, and the interchange will be reconstructed. The facility will be upgraded to current design and safety standards.
 - Regarding bridge deck targets, the TIP contains the following projects:
 - US 96 at BNSF railroad. Bridge maintenance. The facility will be upgraded to current design and safety standards.
 - West Pineshadows at Clemmons Gully. Bridge replacement. The facility will be upgraded to current design and safety standards.
 - FM 365 at Rhodair Gully. Bridge maintenance. The facility will be upgraded to current design and safety standards.
 - South Burton Road at Sandy Creek. Bridge replacement. The facility will be upgraded to current design and safety standards.
 - Terry Road at Anderson Gully. Bridge replacement. The facility will be upgraded to current design and safety standards.
 - North Tram Road at Caney Creek. Bridge replacement. The facility will be upgraded to current design and safety standards.

Based on the Beaumont Municipal Transit (BMT) Transit Asset Management (TAM) plan and the available budget, projects included in the FY 2023–2026 Transportation Improvement Program that address TAM requirements include:

- Combined funds totaling \$4,450,000 in FY 2023 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$4,450,000 in FY 2024 for operations and maintenance to maintain the existing transit assets in a SGR.
- Combined funds totaling \$4,450,000 in FY 2025 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$4,450,000 in FY 2026 for operations and maintenance to maintain the existing transit assets in a SGR;
- \$50,000 in FY 2023 for a replacement bus (battery electric) to maintain the existing transit assets in a SGR;
- \$100,000 in FY 2023 for shelter upgrades to maintain the existing transit asset in a SGR;
- \$125,000 in FY 2023 for an Ops Center Facility Feasibility Study to maintain the existing transit assets in a SGR;
- \$360,000 in FY 2024 for facility design and engineering to maintain the existing transit assets in a SGR;
- \$50,000 in FY 2024 for replacement of vehicles (battery electric) to maintain the existing transit assets in a SGR;

- \$100,000 in FY 2024 for shelter upgrades to maintain the existing transit assets in a SGR;
- \$25,000 in FY 2024 for a NEPA analysis to maintain the existing transit assets in a SGR;
- \$2,055,000 in FY 2025 for the purchase of three 35' CNG buses and four paratransit vehicles to maintain the existing transit assets in a SGR;
- \$304,965 in FY 2025 for the purchase of two-three paratransit vehicles to maintain the existing transit assets in a SGR;
- \$621,266 in FY 2025 for the purchase of one 35' CNG bus to maintain the existing transit assets in a SGR;
- \$18,175,000 in FY 2025 for capital assistance to maintain the existing transit assets in a SGR;
- \$350,000 in FY 2025 for replacement vehicles (battery electric) to maintain the existing transit assets in a SGR;
- \$6,000,000 in FY 2026 for replacement vehicles (battery electric) to maintain the existing transit assets in a SGR;
- \$350,000 in FY 2026 for replacement vehicles (battery electric) to maintain the existing transit assets in a SGR; and
- \$100,000 in FY 2026 for a Short Range Transit Plan to maintain the existing transit assets in an SGR.

Based on the Beaumont Municipal Transit (BMT) Transit Asset Management (TAM) plan and the available budget, projects included in the FY 2023–2026 Transportation Improvement Program that address TAM requirements include:

- Combined funds totaling \$2,076,239 in FY 2023 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$2,076,239 in FY 2024 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$2,076,239 in FY 2025 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$2,076,239 in FY 2026 for operations and maintenance to maintain the existing transit assets in a SGR;

Based on the South East Texas Transit (SETT) TAM plan and the available budget, projects included in the FY 2021–2024 Transportation Improvement Program that address TAM requirements include:

- Combined funds totaling \$1,358,163 in FY 2023 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$1,358,163 in FY 2024 for operations and maintenance to maintain the existing transit assets in a SGR;
- Combined funds totaling \$1,358,163 in FY 2025 for operations and maintenance to maintain the existing transit assets in a SGR; and
- Combined funds totaling \$1,358,163 in FY 2026 for operations and maintenance to maintain the existing transit assets in a SGR.

Project Contribution to Performance Targets

The table below (Table 6) shows the projects programmed in the JOHRTS FY 2023-2026 TIP, and the targets that they are anticipated to positively affect. By agreeing to support the TxDOT performance targets in the areas of safety (PM1), pavement and bridge condition (PM2), and travel time reliability (PM3), the SETRPC-MPO has agreed to coordinate with TxDOT to program projects that will contribute to the accomplishment of those goals, measures, and targets.

Table 6: Project Contribution to Roadway Performance Targets

MPO ID	HIGHWAY	LIMITS FROM	LIMITS TO	DESCRIPTION	PM1	PM2	PM3
18034-F40N	IH 10	Hollywood Overpass, East	7th Street	Widen freeway from 4 to 6 main lanes and reconstruct interchange	X	X	X
18002-F40E	US 69	Tyler County Line	0.75 miles south of FM 1003	Widen from 2 to 4 lanes divided	X		X
19095-F45N	US 69	US 96, South	Jefferson C/L	Widen from 4 lanes to 6 lanes	X	X	X
19084-F45N	US 69	Hardin C/L	Tram Road	Widen from 4 lanes to 6 lanes	X	X	X

In addition, by agreeing to support regional transit agency performance targets in the areas of transit asset management (TAM) and Public Transportation Agency Safety Plans (PTASP), the SETRPC-MPO has agreed to coordinate with Beaumont Municipal Transit (BMT), Port Arthur Transit (PAT), and South East Texas Transit (SETT) to program projects that will contribute to the accomplishment of those goals, measures, and targets. See Table 7 below.

**PUBLIC NOTICE
PUBLIC HEARING NOTICE**

Jefferson County,
Fred L. Jackson, Attorney
Sirs,

I am writing, pursuant to Section 312.2041, Tax Code, to inform you that the Commissioners Court of Jefferson County will conduct a public hearing on September 26, 2023 at 10:30 A.M. (during Commissioners Court), to consider an Amendment of the OCI-Firewater Reinvestment Zone. The notice of this meeting is being duly posted as an agenda item for the Court on that date, and it is anticipated that the Commissioners Court will consider approving an order to this reinvestment zone on that same date.

OCI-Firewater owns property within and adjoin the existing Reinvestment Zone. Should you have any questions or require any further information, please contact me.

Sincerely yours,
Fred L. Jackson

**PUBLIC NOTICE
ADVERTISEMENT
AND INVITATION FOR BIDS**

The City of Bridge City will receive sealed bids for proposed road repairs for Holly Ln., Wisteria, Rosehurst, Thornridge, Meadowcrest, Schoolview until 2:00 p.m. on Tuesday, September 25, 2023, at the Bridge City, City Hall, 260 Rachal Avenue, Bridge City, Texas 77611. The bids will be publicly opened and read aloud at said office at the time and place set forth above. There will be a non-mandatory pre-bid conference with the Owner and Prospective Bidders at 2:00 PM on Monday, September 11, 2023, at the Bridge City, City Hall, 260 Rachal Avenue, Bridge City, Texas 77611. The scope of the work is generally described as approximately 4,500 feet in length by 17 feet wide of two-inch HMAC on these six streets in the City of Bridge City including pulverizing and mixing existing base material adding four inches new limestone base material, and Dense - Grade Hot Mix Asphalt Type D.

Alternate Bid
Approximately 4,500 feet in length by 17 feet wide of two-inch course surface treatment on these six streets in Bridge City including pulverizing and mixing existing base material, adding four inches new limestone base material, and two course surface treatment. **Two course surface treatment will use pre-coated aggregate Type B Grade 3 or Type L Grade 3 for first course, aggregate Type B Grade 4 or Type L Grade 4 for the second course, use asphalt type AC-15P, AC-10-2TR, or CRS-2P. Use rate of 0.45 Gal/SY for the first course and 0.38 Gal/SY for second course. Allow minimum 7 - day cure prior to placing the 2nd course surface treatment.**

The Contractor should be aware of all six locations and familiar with the roadways. The Contractor will be responsible to tie in all the aprons to driveways and other roadways. The Contractor will be required by the owner (City of Bridge City) to repair, replace any spots or complete roadway if it does not hold up to the city traffic within 1 year after the final inspection. The Contractor is responsible for any cleanup needed to ditch, roadways, or surrounding areas before last payment is made. The Contractor shall notify the City of Bridge City and coordinate with them or all emergency departments within the City of Bridge City (Fire, Police, and Ambulance).

The Contractor notifies each customer on roadway being worked on at least 24 hours before any oil is put down on roadway. The Contractor is responsible for any damage resulting from negligence. The Contractor will take the necessary steps to prevent these occurrences and damage to Owner's property and adjacent properties. The Contractor shall contact any utility or line locate company 48 hours before any roadwork has begun and it will be the Contractors responsibility for any damages made if locates are made. The bid bond in the amount 5 percent of the bid issued by an acceptable surety shall be submitted with each bid (for those contracts that exceed 100,000.00). A certified check or bank draft payable to the City of Bridge City or negotiable U.S. Bonds may be submitted in lieu of the bid bond. The City of Bridge City reserves the right to reject any and all bids or to waive any informalities in the bidding. Bids may be held by the City of Bridge City for a period not

to exceed 30/90 days from the date of the bid opening for the purpose of reviewing the bids and investigating the bidder's qualification prior to the contract award.

The City of Bridge City is an Affirmative Action/Equal Opportunity Employer. Section 3 residents, Minority Business Enterprises, Woman Business Enterprises, and labor surplus area firms are encouraged to submit bids.

David Rutledge, Mayor
Bridge City, Texas

The Texas Parks and Wildlife Dept. plans to conduct prescribed burns between Oct. 1, 2023 and Dec. 29, 2023 on the J.D. Murphree Wildlife Management Area contingent on the lifting of the burn ban for Jefferson County. For additional information, call (409) 736-2551 or go to <https://tpwd.texas.gov/>.

Port Arthur News: Aug. 26, 2023
PRESCRIBED BURNS

We Value Your Input!

The South East Texas Regional Planning Commission (SETRPC) is the designated Metropolitan Planning Organization (MPO) for the Jefferson-Orange-Hardin Regional Transportation Study (JOHRTS) area, comprised of Jasper, Jefferson, Orange and Hardin Counties. In conjunction with the Texas Department of Transportation, the SETRPC-MPO is responsible for an overall plan that identifies the most desirable and efficient means of meeting transportation needs for the next twenty years.

As part of the continuing, cooperative, and comprehensive transportation planning process, the SETRPC-MPO will be hosting five public meetings to provide the citizens an overview of, and an opportunity to comment on, the JOHRTS FY 2023-2026 TIP, Amendment #1, which contains projects and programs scheduled for implementation within the next four years. In addition to this, the public will also have the opportunity to comment on the JOHRTS MTP-2045, Amendment #5, which includes transportation projects through year 2045.

Public Meeting Locations and Times:

Monday, September 11, 2023 - 3:00 PM
City of Orange – Public Library, 220 5th Street, Orange, TX

Tuesday, September 12, 2023 - 3:00 PM

Wednesday, September 13, 2023 - 3:00 PM
South East Texas Regional Planning Commission, 2210 Eastex Freeway, Beaumont, TX
*HYBRID MEETING

Thursday, September 14, 2023 - 2:00 PM
Jasper County Courthouse – Annex Building, 271 E. Lamar Street, Jasper, TX

Monday, September 18, 2023 - 3:00 PM
City of Silsbee – Public Library, 295 N. 4th Street, Silsbee, TX

The JOHRTS FY 2023-2026 TIP, Amendment #1 and the JOHRTS MTP-2045, Amendment #5 can be downloaded at www.setrpc.org/ter. The 30-day public comment period ends on Wednesday, September 20, 2023. Please attend the meeting to provide input, or submit written comments by 5:00 PM, September 20, 2023, to Bob Dickinson at the South East Texas Regional Planning Commission, 2210 Eastex Freeway, Beaumont, Texas 77703. For more information or for special needs requests (48 Hours), please contact Bob Dickinson at (409) 899-8444 extension 7520 or bdickinson@setrpc.org.

**PUBLIC NOTICE
CITY OF PORT ARTHUR, TEXAS
ADVERTISEMENT FOR BIDS**

Notice is hereby given that sealed bids, addressed to the City of Port Arthur, will be received at the Office of the City Secretary, City Hall 444 4th Street or P. O. Box 1089, Port Arthur, Texas 77641 no later than **3:00 p.m., Wednesday, September 6, 2023** and all bids received will thereafter be opened and read aloud at **3:15 p.m., on Wednesday, September 6, 2023** in the City Council Chambers, 5th Floor, City Hall, Port Arthur, Texas for certain services briefly described as:

REMOVAL OF SIX (6) CONCRETE RUBBLE PILES

Bids received after the deadline stated above, regardless of method of delivery, will not be considered and returned unopened.

Copies of the Specifications and other Contract Documents are on file in the Purchasing Office, 444 4th Street, City of Port Arthur, and are open for public inspection without charge. They can also be retrieved from the City's website at www.portarthurtx.gov/bids.aspx or www.publicpurchase.com.

The City of Port Arthur reserves the right to reject any and all bids and to waive informalities.

Per Chapter 2 Article VI Sec. 2-262(C) of the City's Code of Ordinance, the City Council shall not award a contract to a company that is in arrears in its obligations to the City.

NON MANDATORY PRE-BID MEETING IS SCHEDULED FOR THURSDAY, AUGUST 31, 2023 AT 10:00 A.M. AT 5TH FLOOR CONFERENCE ROOM CITY HALL, 444 4TH STREET, PORT ARTHUR, TX 77640

Per Chapter 2 Article VI Sec. 2-262(C) of the City's Code of Ordinance, the City Council shall not award a contract to a company that is in arrears in its obligations to the City.

Attention is called to the fact that not less than the federally determined prevailing (Davis-Bacon and Related Acts) wage rate, as issued by the U.S. Department of Labor and contained in the contract documents, must be paid on this project. In addition, the successful bidder must ensure that employees and applicants for employment are not discriminated against because of race, color, religion, sex, sexual identity, gender identity, or national origin.

The City of Port Arthur reserves the right to reject any or all bids or to waive any informalities in the bidding. Bids may be held by the City for a period not to exceed 60 days from the date of the bid opening for the purpose of reviewing the bids and investigating the bidder's qualifications prior to the contract award.

**CITY OF BEVIL OAKS, TEXAS
NOTICE TO BIDDERS**

The City of Bevil Oaks is accepting bids for the purchase of a double-wide mobile home trailer previously utilized as the City's

temporary office facilities. The mobile home is a 2019 Jefferson model by Jessup. 32x60 with 3 bedrooms, 2 full baths, kitchen and living room. Purchased new. The mobile home may be available for inspection during City office hours by contacting Sabrenna Crain at (409) 753-1475 or emailing sabrenna@cityofbevil-oaks.com with no less than 72 hours' notice. The bids must be submitted in a sealed envelope to be opened at the City Office on September 14, 2023 at 11:59 a.m. where the bids will be opened and read aloud. All bids will be considered and either rejected or one purchaser selected at the regular City Council meeting on September 21, 2023. The City reserves the right to negotiate with any and all individuals or firms that submit bids. Section 3 Residents and Business Concerns, Minority Business Enterprises, Small Business Enterprises, and Women Business Enterprises, and Labor Surplus Area firms are encouraged to submit bids. The City of Bevil Oaks is an Affirmative Action/Equal Opportunity Employer.

**SMALL TAXING UNIT
NOTICE**

The City of Taylor Landing will hold a meeting at 7:00 PM on September 21, 2023 at 108 Twin Pines Lane, Taylor Landing, Texas 77705 to consider adopting a proposed tax rate for tax year 2023. The proposed tax rate is \$0.219983 per \$100 of value.

The proposed tax rate would increase total taxes in City of Taylor Landing by 3.50%.

Visit [Texas.gov/Property-Taxes](https://www.texas.gov/Property-Taxes) to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.

The 86th Texas Legislature modified the manner in which the voter-approval tax rate is calculated to limit the rate of growth of property taxes in the state

Housing Authority of the City of Orange

516 Burton Avenue P.O. Box 3107 Orange, TX 77631-3107 |Phone: 409.883.5882|Fax: 409.883.8014| www.orangeha.com
Housing Authority City of Orange: JOB ANNOUNCEMENT

POSITION TITLE: Executive Director
DEPARTMENT: Executive
SALARY: To be Negotiated
JOB TYPE: Full-Time (Probationary period – with an evaluation at 6 months)
DATE POSTED: August 18, 2023
CLOSING DATE: September 18, 2023

The Housing Authority City of Orange is seeking qualified applicants for the position of Executive Director. The Executive Director has total responsibility for administering, managing, maintaining, planning, and directing the Housing Authority's public housing, Section 8, and other programs. The Executive Director is responsible for the safekeeping of all property and records, the safety of Authority residents, and is the Authority's liaison with the Board of Commissioners of Employer, the United State Department of Housing & Urban Development ("HUD"), and state and local entities.

Executive Director Duties:

- Plans, develops, organize, coordinates, delegates, supervises, directs implementation of the Authority's Housing Programs
- Develop employment, training, direction, supervision, utilization, discipline, and termination of employees.
- Recommends to Board of Commissioners schedule of salary ranges, employee benefits & periodic revisions.
- Monitors the Authority's compliance with federal, state, and local laws and regulations pertaining to the Public Housing Agency (PHA).
- Oversees preparation and submission on all budgets and revisions, revises and approves all Authority expenditures and monitors funds for effective and efficient use.
- Reviews periodic reports on the accomplishment of assigned goals and objectives.
- Prepares and submits reports and statistics required by such entities.
- Serve as the Secretary to the Board of Commissioners of HACO.
- Respond to other Board of Commissioners inquiries regarding HACO plans and operations.
- Develop organizational structures and plans, implement internal policies, programs, goals, and priorities.
- Negotiate contracts with outside agencies and companies for major maintenance and management services.
- Make policy, administrative, and management decisions concerning the daily operation of HACO.
- Meet with residents concerning complaints and/or grievances and advise them of their rights to hearings according to the HACO procedures.
- Review and approve reports and other documents that are required by federal, state, and local jurisdictions.

Executive Director Qualifications:

- Four-year bachelor's degree in Public Administration, Business Administration, or related field, Public Housing Certification and / or five years of responsible managerial experience in public housing or five years of responsible managerial experience in a closely related field, e.g., a regulatory Agency, or an equivalent combination of experience and education, construction, contracting, or maintenance preferred.
- Comprehensive knowledge of the relationship of PHAs to other federal, state, and local jurisdictions and their abilities to provide funds or other support to the Authority.
- Comprehensive knowledge of PHA operating policies and procedures pertaining to public housing authorities.
- Some knowledge of the modern principles, practices, and techniques of budgeting and accounting and of the function and operation of the construction and bond finance industries.
- A Public Housing Management Certificate is required.
- Valid Driver's license.

- Benefits:**
- Health Insurance
 - Dental Insurance
 - Pension
 - Vacation, Sick Leave

All parties interested apply at www.orangeha.com.

Resolution

NO. 2023-12

AUTHORIZING THE APPROVAL OF THE JOHRTS FY 2023-2026 TRANSPORTATION IMPROVEMENT PROGRAM (TIP), AMENDMENT #1 FOR THE SOUTH EAST TEXAS REGIONAL PLANNING COMMISSION METROPOLITAN PLANNING ORGANIZATION (MPO)

WHEREAS, the JOHRTS Metropolitan Transportation Plan MTP-2045 was adopted by the Transportation Planning Committee on July 18, 2019; and

WHEREAS, the JOHRTS FY 2023-2026 TIP, Amendment #1 for the SETRPC-MPO was adopted by the Transportation Planning Committee on September 28, 2023; and

WHEREAS, the proposed JOHRTS FY 2023-2026 TIP, Amendment #1 is consistent with the current JOHRTS Metropolitan Transportation Plan MTP-2045, Amendment #5 and its finding of conformance with the State Implementation Plan for air quality; and

WHEREAS, the JOHRTS FY 2023-2026 TIP, Amendment #1 is consistent with the federal fiscal constraint requirements established for the Transportation Improvement Program and is consistent with the current financially constrained JOHRTS Metropolitan Transportation Plan MTP-2045, Amendment #5.

NOW, THEREFORE, BE IT RESOLVED BY THE TRANSPORTATION PLANNING COMMITTEE FOR THE SOUTH EAST TEXAS REGIONAL PLANNING COMMISSION-METROPOLITAN PLANNING ORGANIZATION, THAT THE JOHRTS FY 2023-2026 TRANSPORTATION IMPROVEMENT PROGRAM (TIP), AMENDMENT #1 BE ADOPTED AS IDENTIFIED IN THE SEPTEMBER 2023 TPC MEETING PACKET.

PASSED AND APPROVED this 28 day of September 2023, at a regularly scheduled meeting of the Transportation Planning Committee.

APPROVED:

Martin Gonzalez, P.E., Secretary
JJOHRTS Transportation Planning Committee
TxDOT-Beaumont District Engineer

APPROVED:

Johnny Trahan, Chairman
JJOHRTS Transportation Planning Committee
Commissioner, Orange County

Appendix H: MPO Self Certification

This page is intentionally left blank.

MPO Self-Certification

In accordance with 23 Code of Federal Regulations (CFR) part 450.334, the Texas Department of Transportation and the Beaumont-Port Arthur Metropolitan Planning Organization for the Hardin, Jefferson, Orange Counties urbanized area(s) hereby certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- 1) 23 United States Code (U.S.C) 134, 49 U.S.C 503, and 23 CFR 450 subpart C – Metropolitan Transportation Planning and Programming;
- 2) In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- 3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- 5) Section 1101(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU (Public Law 109-59)) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- 6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- 8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- 9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- 10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
